## Education and Training

Software Engineering Program  
General Assembly  
Boston, MA  
Software Engineering, 01/2020

Bachelor of Arts  
University of Massachusetts Amherst  
Amherst, MA,  
English Literature, 05/2013

## Experience

### General Assembly

*Software Engineering Fellow | Boston, MA 10/2019 to 01/2020*

Built 4 web applications over the course of a full-time, 13-week immersive program, utilizing Git/GitHub for version control:

*"What to Watch?"*

- Full stack application (React & Rails) that allows users find new TV shows based off of user ratings and comments.

*"We-blog"*

- Full stack blog application built with a team. Users can create blog posts and comment on existing posts.

*"Project Tracker"*

- A full stack application designed to solve the real-world problem of not knowing what peers/adjacent teams are working on.

*"Tic-Tac-Toe"*

- Single-page application that allows 2 users to play a game tic-tac-toe.

### Wayfair

*Talent Operations Senior Associate | Boston, MA 07/2017 to 10/2019*

- Served as the primary system administrator for the tools & technologies the Talent Acquisition team used.
- Played a key role in 7-month implementation of a new Applicant Tracking System and contributed to design of APIs that synced data between various tools/systems.
- Provided user support for the 300+ member TA department via multiple channels (Slack, email, ticketing system) as well as created and maintained SOP documentation.
- Liaised with the Analytics team to help establish practices and processes that maintained data integrity for department-wide reporting.

*Merchandising Operations Specialist | Boston, MA 07/2014 to 06/2017*

- Programmatically quality assured thousands of products a week.
- Continually iterated upon and streamlined the department's QA process with VBA macros and SQL scripts.
- Spent 6 weeks in Berlin integrating EU-specific checks into their process as well as providing extensive training to the teams.
